- 2) Explain what motivated each of the people in the audio clips.
- 3) Make a list of all the factors which you think motivate people to become politically active or involved in projects in their communities.
- 4) Make your own diagram, developing the ideas on information sheet D.
- 5) Organise a mock (or real!) campaign to get something done, or to support a movement, or to oppose something. It might be better to do this in groups. What will be the more effective steps you can take?
